

# ACIOA Cybersecurity HACKATHON

## ACIOA Cybersecurity Hackathon 2022 FAQ

### 1: What is a Hackathon?

A Hackathon is a social coding event that brings computer programmers like software developers, graphic designers, user interface specialists along with industry process experts and professionals together to identify issues and create software solutions within a stipulated time frame.

### 2. Who can participate?

Everyone in the ASEAN countries is welcome to join and apply! ASEAN countries include Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam.

### 3. How are the winners selected?

There will be an independent judging panel rating the submissions based on the following:

1. To what extent does your solution contribute to the positive impact of the overall cyber posture
2. Creativity and cost-effectiveness in solving the challenge
3. Uniqueness and value that your solution can bring to the cybersecurity ecosystem
4. How your solution helped to achieve the desired cybersecurity outcome

### 4. Who will be judging?

The judging panel composition will be announced closer to the date of the ACIOA Cybersecurity Hackathon 2022.

### 5. How many people can form a team?

There is no limit to the number of team members.

### 6. What are the costs of participating?

FREE. Free for spectators. Free for participants.

### 7. Do we sign up as individuals or as a team?

You can sign up as an individual or a team.

### 8. Where will the ACIOA Cybersecurity Hackathon 2022 take place?

This event will be held online via the ThinkSpace platform.

### 9. Can I only participate in one challenge?

You can participate in more than one challenge, there are no restrictions on creativity.

### 10. Who is keeping the intellectual property of my solution?

The intellectual property belongs to the inventor. Winning submissions may be published online on the ACIOA website after the ACIOA Cybersecurity Hackathon 2022 concludes.
